"All work, even cotton-spinning, is noble; work is alone noble." – Carlyle

"O you venerable brothers, similarly God is with you, if you promise to despise the deceitful world in perpetual love of God, and scorn the temptations of your body: sustained by the food of God and watered and instructed in the commandments of Our Lord, at the end of the divine office, none should fear to go into battle if he henceforth wears the tonsure".

The Living Legends Project

In this segment, Signet of Zerubbabel Council No. 36 A.M.D., would like to emphasize the importance of preserving our Masonic history. We sincerely hope our efforts will help preserve this "light", which are paramount to the success of our future generations. Today, we have the ability to preserve our most valued historical asset. Our "Living Legends" are those Brothers whose strength, wisdom and character have endured the tortures of time and weathered the countless storms of life. With their plight in mind, Signet of Zerubbabel is honored to present "[The Living Legends Project](#)". Within this portion of our Web Site we will use video to record and preserve interviews with our esteemed members. Our hopes and aspirations are simply that their "light", wisdom and character will forever be remembered in their own voices and in their own words.

York Rite members contact us to schedule your Interview. Interviews are recorded at the Masonic Center or we can come to your residence. Topics are friendly and are provided in advance. See existing interviews at www.signetofzerubbabel.com
